

SOUTH DURBAN TRUCKING COALITION

A campaign for

-less road congestion
-less trucking accidents
-safe roads
- decreased social ills
-improved & efficient transport systems
-trucks off community roads

Why a trucking coalition? For decades we have been subjected to traffic congestion in and around the port. Recently this has escalated at an alarming rate so that neighbouring communities are bearing the brunt of traffic jams, accidents, toxic emissions, illicit parking, and damaged infrastructure. With mushrooming container depots, small-scale businesses are being destroyed. Livelihoods, homes and children, and people's safety are threatened. Visible and effective policing is non-existent.

IS THE ABOVE FAMILIAR TO YOU? DO YOU EXPERIENCE HIGH LEVELS OF TRUCK TRAFFIC ON A REGULAR BASIS?

IF YES, COME JOIN US! YOU -- WE -- ALL CAN MAKE A DIFFERENCE!

You can help by reporting incidents on the Metro Police complaints line: telephone 031 361 0000. Give them the date, time, and location of the incident and the vehicle registration number, and the name of the trucking company. Please get a reference number and the name of the consultant.

We will follow up! Please send us the above details and any photos on WhatsApp: 069 1184 227 or complete this easy form: <https://bit.ly/33lsbe1>

Who is the trucking coalition? Active residents from Clairwood, Bluff, Merebank, Wentworth, Umbilo, Glenwood, Seaview & Chatsworth.

We are calling for

- enforced regulation of trucking activities
- a well monitored and controlled system to protect the rights of all those directly or indirectly affected by “trucking & port logistics”
- investment in sustainable rail and multimodal hubs, such as the Cato Ridge Dry Port
- Formalisation of approved trucking routes and no-go areas

For more information contact Shanice Firmin on WhatsApp or call us on 069 1184 227, or Email truckingcampaign21@gmail.com
